

LS One | Express

Cloud POS software that makes selling easy

LS One Express

Cloud-based software that is simple and inexpensive to install and run, yet powerful and flexible.

LS One Express is easy to set up and use. It works with a wide range of POS hardware. Install it, upload your products, and you are ready to make your first sale in minutes. Its versatility extends from use in retail stores to beauty salons to cafés; the possibilities are endless.

Increase your efficiency with

Easy-to-use Point of Sale

Powerful back office features

Inventory management

Reports and analytics

LS One Express will help you

- Get your business up and running in no time
- Streamline your inventory
- Plan your business future with insights from the reports
- Set prices and offers for your locations from back office
- Run your business from anywhere
- Keep control over your sales and stock levels

Cloud-based

All the benefits of the cloud –
And none of the risks

LS One Express combines the lightness of a cloud-based software solution with stability and reliability. With LS One Express you will be totally operative even in the event of network downtime, as the POS terminals always work offline. The system takes care of syncing your data to the cloud as soon as the network connection is back, uploading to the cloud all your sales information and stock or setup changes which may have taken place during network downtime.

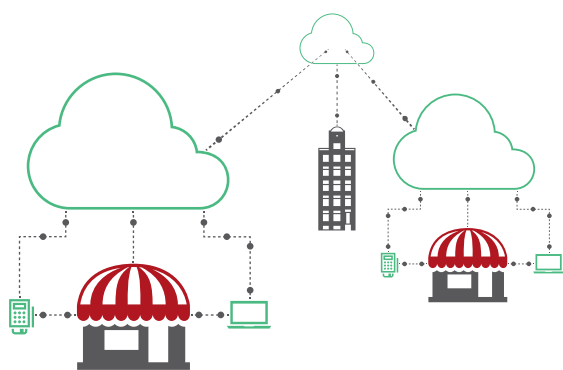

Versatile POS

Enhance your customer service

The LS One Express POS is a versatile Point of Sale which brings simple power and efficiency to retail and hospitality organizations. Enhance your sales staff's speed and accuracy and reduce staff training times. The easy-to-use graphical user interface can be customized to your needs with the touch of a button.

Handle multiple tender payments, discounts, promotions, gift cards and store credit vouchers easily and hassle-free with LS One Express powerful POS.

Complete store management

Gain control over your business

Edit and configure items, customers and prices from the LS One Express back office; the information will be sent automatically to all the terminals in all of your locations. Manage your inventory and stock levels. Gain control over your business with a complete set of management tools that enhance your company's ability to thrive by accelerating access to information. Powerful reporting functionalities will help you interpret and understand your data to help you plan your business's bright future.

Simple, fast and expandable

Designed for growth

Install LS One Express, import your items and in a matter of minutes you are ready to run, with just a small financial and time investment.

Although light and fast, LS One Express is also designed for growth. Add new terminals and stores to your set-up easily and quickly - for example during peak times, or as your business expands.
